OF A NEGATIVE SORT

SOUTHERNERS COMPARE NOTES ON WHAT THEY HAVE NOT DONE.

Second Day's Session of the Southern Development Convention Held at Washington.

WASHINGTON, Aug. 31.-The second day's meeting of the Southern development convention was begun with a large attendance. Mr. W. G. Vincenheller, the State Commissioner of Mining of Arkansas, was the first speaker, presenting a conservative review of the resources of that State. He said that there was no longer a race problem, as the public schools were educating negroes to the duties of citizenship, the Australian ballot system had eliminated dangers from ignorance, and the negro had become reconciled to the fact that the white man, who paid most of the taxes, must rule. Its mineral wealth he considered the greatest resource of the State and laid stress on the need of more railroads for its development.

The report of the committee on plan and scope was read by W. Seymour White, of Virginia. It provides for a permanent bureau in Washington for the exhibition of the resources of the Southern States and for the general information of capital and labor. A warm discussion was precipitated. Mr. Charles Catlett, of Virginia, declared that the Southern States had taken little advantage of the great opportunity afforded by the world's fair. Mr. B. F. Cleyton, of Florida, held that the plan to confer authority on the Governors of States would give a political character to the organization. Mr. Robert W. Hunter, of Virginia, sustained the report. When he said that the South did not expect to build herself in a day; that she did not care for what was called the "tide of emigration," for Poles, Hungarians and Anarchists, he was applauded.

The resolutions from the committee on plan and scope were finally adopted with amendments providing that a committee of one member from each Southern State and the District of Columbia be appointed by the chair to perfect the details of the plan of organization; that the convention adjourn until another meeting to be called by the committee, to which each Governor be requested to appoint ten delegates, fation, and that the boards of trade, business and agricultural organizations be requested to send representatives. Also, that the vote of each State in the adjourned convention shall be equal. At the afternoon sessions papers were read by Messrs, T. F. Barrett, of West Virginia; William Edgar Rogers, of Washington; L. Q. C. La-mar, of Mississippi, and B. F. Clayton, of Florida. Dr. D. T. Day, of the geological survey, made an address on the mineral claude N. Bennett, private secretary to the Secretary of the Interior, said that Georgia had produced more people of queer names-Dink Bottses, Pod Dismukes and Potsdam Sams-than any other State, but

Mr. Barrett said that West Virginia, alwas not by any means a laggard in the possession of material development. Her vast forests of poplar, pine and hard wood had made her one of the lumber-producing centers of the United States. Since the development of her lumber interests have begun her reputation as a great producer in that line had already become known to the whole world, for from her forests of black walnut and poplar many of the finest specimens of timber are being shipped to transatlantic ports. He also called attention to the iron, coal, coke and other great industries of his State. Mr. Rogers spoke of the neglected gold fields of the South, alleging that within ten miles of this spot men are working away with common sluice boxes, washing out the precious nuggets from the sacred soil of Virginia at the average rate of five dollars per day per man. The same work is going on through the battle-scarred forests and tangles of the Wilderness and Spottsylvania county, Virginia. Down in northern Georgia the same work is going on, for this is the same great central gold belt, well known and visible on the sur-face in Montgomery county, Maryland, and extending from thence through Virginia. North Carolina and Georgia. In Lumpton county, Georgia, there are now fourteen producing mines turning in gold to the United States mint at Charlotte, N. C. Capital from the North has awakened to this profitable field of venture, and for months past quiet investigations have been going on by scientific men sent at the instance of capitalists all through these

I. Q. C. Lamar spoke for Mississippi, which, he said, could produce every staple that blesses the soil of Illinois, and adds to her products the great staple, cotton and almost every fruit and vegetable of the tronics. She numbers her sawmills by hundreds, and some of them are among the most extensive in the South. Her lumber cut in 1890 was over eight hundred millions of feet, and it is estimated new at fully 1,100,000,000, and her lumber exports are to many of the countries of Europe, in addition to large shipments to South Africa and the Spanish Americas. Mr. La-mar spoke in detail of the remarkable fruit, vegetable and manufacturing resources and live stock industries of Mississippi, with her superb educational institutions and free school system, giving the convention and the investment public valuable food for reflection and profitable digestion. Mr. Clayton, in behalf of Florida, said her orange output for 1893-4 was about 5,-000,000 boxes. At the present time the principal fruit output consists of the orange, the pineapple, the coacoanut, the banana and the fig of the tropical fruits, and the peach, pear and the strawberry of those grown later in the season further north W. Seymour White, editor of the Fredericksburg, Va., Free Lance, was loudly ap plauded when he said that the South has produced no Debs or labor riots, had enlisted no Coxey armies and thrown out by the scruft of the neck the first Coxey hand which entered Virginia. Congressman Richard H. Clark, of Ala bama, was the first speaker of the night session. In the light of recent events he thought the South might congratulate herself on the fact that the scum of Europe had not come within her borders. She wanted picked laborers, but for the Anarchist had only the muskets of State troops and the hangman of the courts. He dwelt particularly on the commercial advantages of the navigable rivers of Alanama and the improvements made on them by congressional appropriations, pointing out that through rivers and coal and iron fields of northern Alabama might opened commerce and supply the Central and South American demand. In twentythree years the annual output of coal in Alabama had grown from ten thousand to five million tons. Applause greeted his statement that the building of the Nicaragua canal was sure. Iron could be converted more cheaply in Alabama than elsewhere because of the proximity of coal and a large lumber business had sprung from nothing in a quarter of a century, One result of the improvement of Mobile bay had been a marvelous fruit trade. A telegram sunouncing the death of Col. John M. McElrey, of Alabama, was read and resolutions extolling his services to the South adopted. Lee M. Pipscomb spoke of the resources of Texas. A resolution was offered by Judge J. T. Goodrick, of Fredericksburg, indorsing the bill for the free

UNITED GARMENT WORKERS OF NEW YORK TO BE ORDERED OUT.

They Number in all About 35,000-Weavers and Spinners in Massachusetts Quitting Work.

NEW YORK, Aug. 31.-The World will to-morrow say: The united garment workers, with a membership of thirty-five thousand in this city, expect to order all its men on a strike soon. The eight hundred members of the Finishers' Union will go out to-day. They will demand a ten-hour work day and payment by the week. A mass meeting of cloak makers will be held to-night to consider whether the eight thousand members of the union shall strike for an advance of 25 cents per garment. The Brooklyn tailors have demanded a ten-hour day and a schedule averaging \$2 a day.

Clay City Miners Holding Out.

Special to the Indianapolis Journal. CLAY CITY, Ind., Aug. 31.-The miners at the Harrison mine are determined not to accept the ten-cent reduction asked by Mr. Falley. They are prepared for a long fight. Large donations in cash and provisions are coming in all the time. About 55 was received by the committee to-day. Three wagon loads of provisions were received last week. The miners feel that Mr. Tally should pay according to the scale which he signed at Columbus.

Spinners Also Go Out. WOONSOCKET, R. I., Aug. 31.-One hunired employes of the River spinning mills have struck against a change in the system of payment. They were notified that hereafter they would be expected to work by the piece instead of by the week. The change amounts to a reduction in wages. The mills were at once shut down.

KATIE DUGAN'S MURDERER.

Albert Stout Charged with the Crime After Two Years.

WILMINGTON, Del., Aug. 31.-Albert Stout, aged forty, freight agent for the Charles A. Warner Company, was arrested to-day on a warrant charging him with the murder of Katie Dugan in this city nearly two years ago. The murder was committed on the night of Oct. 19, 1892, and the body was discovered next morning lying in the middle of a vacant lot in the southwestern section of the city. The girl's throat was cut from ear to ear, the head having been almost severed from the body. An examination proved that the girl was in a delicate condition. Suspicion was directed to Stout, in whose family she resided as a domestic. A note which the girl had received the day of the murder asking her to meet the writer that night "at the same time and place" has been recognized by experts as being in Stout's writing. Testimony has been obtained by persons who claimed to have seen Stout and the Dugan girl together the evening of the murder going in the direction of the scene of the tragedy. Stout has been kept constantly under police surveillance while the investigation was going on. The war rant for his arrest was sworn to before Justice McWharter by Mrs. Catherine Dugan, the dead girl's mother. Stout will

Wisconsin Plants Not Bought Up Yet, but May Be.

CHICAGO, Aug. 31.-Chicago paper men discredit the report that an English syndicate has purchased all the paper and | by acclamation. pulp mills in the Fox river valley in Wisconsin and thereby made a combination of that trade in the West. At the office of the Chicago Paper Company it was stated to-day that the promoter, Butterworth, who is said to have negotiated the deal, has been at Appleton for some time calling on the different manufacturers. He has not made any propositions, but has simply asked for options on the different plants in that vicinity. All he intends to do is to get the figures and send them to London for the inspection of the capitalists who employ him. If the figures are satisfactory something may come out of the work, but so far there has been no deal made. Mr. Butterworth has not secured a single option, it is stated, but he is likely to get prices on all the mills.

FALSE PRIESTS COMING.

Letter of Warning to Cardinal Gibbons

from Cape Colony.

BALTIMORE, Aug. 31 .- Cardinal Gibbons has received a letter from the Rt. Rev. Dr. John Leonard, vicar apostolic of the western district of Cape Colony, calling his attention to the probable appearance in this country of "four or five gentlemen who called themselves Catholic priests in communion with Rome and thus procured letters from the Catholic bishops of Natal and Orange Free State as well as from the prefect apostolic of the Transvaal." It appears that these men for the purpose of collecting money have represented themselves as priests of some Oriental rite in communion with Rome. The Rt. Rev. Dr. Leonard, in his letter, says: They were about to visit America as well as Great Britain and Ireland and all the English colonies and they left here on Wednesday last 18th inst. (July) for that purpose.

MR. MORTON ACCEPTS

EX-VICE PRESIDENT FAVORS NEW YORK GUBERNATORIAL HONOR.

Letter That Relieves Tension in the Empire State-Senator Peffer Is at Niagara Falls.

RHINECLAFF, N. Y., Aug. 31 .- The following letter, dated Ellerslie, Aug. 31, explains itself:

"In response to the very large number of

suggestions made to me that I should declare my attitude with reference to the Republican State convention, I address myself to the Republicans of the State of New York and beg to say that while the sug-gestions are in themselves unusual, I venture to express the hope that the urgency in the public journals for the announcement of my decision was not occasioned by any undue hesitation on my part. "I am certainly not seeking any nomination from the convention. I have been absent from the country so long and so far that no one can refer to the slightest movement on my part to cause a discussion in which my name has been used with the names of other Republicans, who are deservedly honored throughout the State for their service and character. I have put myself in nobody's way, nor have I suffered any one to do that for me which I disclaim for myself. And now, having been five days on American soil, after twelve months' absence, and having examined the situation as well as possible in that period, I beg to say that in the approaching councils of the party in convention assembled I desire to be regarded as a soldier in the Republican army ready to receive the commands of my fellow-citizens of like persuasion in public policy with myself, whether those commands involve leadership or services in the ranks. "When I left the Vice President's chair and since I have had no thought, much less desire, to re-enter public life. Manifold considerations regarding my family, which I

have no right to obtrude upon the public, led me to desire to spend the remainder of my days in retirement. By the kindness of my countrymen, having held high official positions at home and abroad, I was profoundly content to let the record stand. "But do not understand me to imply that I look lightly upon the office of Governor of the State of New York. I know something of the resources, the capacities and needs of the Empire State, and I appreciate the importance, the usefulness and the honor of the great office of the chief executive. Should I be called to fill it I shall strive earnestly to serve the people with steadfastness of purpose and to faithfully administer a public trust. Finally, I aver in the sincerest terms if the convention shall prefer to see any other name than mine on the Republican banner I shall accept the result without regret or sense of injury, and will give to the successful candidate my hearty and unwavering support. "Trusting that the action of the convention will be harmonious and redound to the best interest of the party and State, I remain, with great respect, your obedient servant, LEVI P. MORTON."

COL. BOWLES FLOPS.

Noted Kentuckian Who Will Henceforth Be a Republican.

LEXINGTON, Ky., Aug. 30 .- Col. O. C. Bowles, of Pikeville, Pike county, the leading Democrat of the mountain region of Kentucky, has announced that he will hereafter affiliate with the Republicans. His section is largely interested in lumber, coal party on its tariff policy toward these products. Colonel Bowles will take the stump for N. T. Johnson and Chauncey Stokes; Judge of the Subreme Court, Daniel McCaskel; Congressmen-First district, Robert A. Rhodes; second, W. A. Rice. The platform declares for government ownership of railway and telegraph lines, and free coinage of silver at the ratio of 16 to 1, and embodies practically all the points of the Populist platform. The convention raised \$1,500 for campaign purpôses.

Word from Senator Peffer. NIAGARA FALLS, Aug. 31.-Senator Peffer, of Kansas, in an interview to-day, said in regard to the effect of tariff legislation: "You hear of business being revived, of factories starting up, of increased orders being received and other reassuring signs of business revival, but I regard it as only temporary. This country is in a crisis, and the causes that have led to the deplorable condition of affairs have not yet been remedied, and for this reason I regard the present improved condition of affairs as

THE PENSION INCREASE. Several Thousand Claims Affected by

the Act of Jan. 1, 1893. WASHINGTON, Aug. 31 .- Several thousand pension claims are affected by four recent rulings of acting Secretary of the Interior Reynolds construing the act of Jan. 1, 1893, which provides for an increase of pensions from \$8 to \$12 per month on account of service in the Mexican war. The acting Secretary holds that the increase granted under that act does not commence at the date of the act, but the date of approval of the increase claim in the Pension Bureau, and the increase does not apply to the case of widows. The act, says Judge Reynolds, does not include those persons who composed Powell's Battalion of Missouri Mounted Volunteers, who were directed to be placed on the pension roll subject to the provisions of the act of Jan. 23, 1887, pensioning the survivors of the man 1887, pensioning the survivors of the war with Mexico. The department also holds that the fee of \$25 claimed by attorneys under articles of agreement cannot be allowed, and no fee in excess of \$2 can be paid, as provided in the act of March 3, 1891, the increase being in the nature of an

ance in the treasury to-day was \$126,875,440, of which \$55,248,023 was gold reserve. The total receipts from all sources at the treasury during the present month amount to \$41,021,330 and the disbursements \$31,688,804, leaving a surplus for the month of \$9,332,526, although the disbursements to-day exceeded the receipts by \$348,512. Of the receipts, \$11,804,914 were from customs and \$27,562,278 from internal revenue. Only \$443,174 was received to-day from internal revenue sources, and this, it is thought, came almost entirely from the sale of oleomargarine and to-bacco stamps. The Peorla, Ili., district, which during the time the tariff bill was in the hands of the President yielded as high as \$500,000 in a single day on whisky withdrawals, paid last Wednesday only \$48. For the first time in several months the customs receipts reported to-day amounted to more than \$1,000,000, and this increase is expected to contine until a large part of the goods now in bond shall have been withdrawn. The pension payments this month amount to \$12,615,556.

Send Your Orders for Seeds. WASHINGTON, Aug. 31.-The com-

force to perform the work this season will probably be organized in the beginning of October and it will be commenced in the beginning of January. The long in-action on the bill has also prevented the department from obtaining a number of vegetable seeds, notably turnips. The amount allowed for the work last year was \$50,000, and this year it is \$10,000 less.

Commutation of Sentence Asked. WASHINGTON, Aug. 31. - Secretary Gresham to-day received a communication from Minister Gray at Mexico in relation to the case of Edward T. Adams, the Texan convicted of murder. Minister Gray has made a presentation of the case to President Diaz and asked that the sentence be commuted. President Diaz informed Mr. Gray that the Mexican government was making a thorough examination of the case and that if it were found possible to comply with the request of the United States minister such action would cheer-

fully be taken. Otis Allen Gould Pardoned. WASHINGTON. Aug. 31. - President Cleveland has followed up his action in pardoning Albert L. Gould, one of the brothers convicted of wrecking a bank in Albany, N. Y., by granting a pardon to another brother, Otis Allen Gould. The sentence of the latter was to six years' imprisonment in the Elmira reformatory.

PETER MUST FIGHT

SIOUX CITY ATHLETIC CLUB PUTS UP CHECK FOR THE PURSE.

The Australian Declares Corbett Only Bluffing, and Can't Be Prevailed on to Enter the Ring.

NEW YORK, Aug. 31 .- Tom O'Rourke, who is looking after Peter Jackson's interest in this city, said to-day, when he saw the World's fac-similie of the Sioux City Athletic Club's checks:

"Very good. Those checks seem to be all right. I know the amount is perfectly satisfactory to Peter. The one thing that he is anxious about is the ability of the club to arrange a fight without police interference. What he wants particularly is a guarantee of immunity from arrest. Peter would also like to see and talk to a repre-sentative of the Sioux City club. He wishes to know exactly what is demanded in the articles it may forward. When I meet the lub's representa graph Jackson to come to New York. lon't see any reason now way Corbett and Jackson should not fight. Peter will meet Corbett in the Sioux City club, provided, of course, it will guarantee that no arrests will follow. You see, he has not booked any dates for his show yet this season, as he has been waiting to arrange matters with Corbett. Jim, on the other hand, seems to have booked his company pretty well, or at least Brady has for him. Now, what will he do if he signs to meet Jackson in four or five months? He will pay big bonuses to be permitted to cancel. If he has been sincere in his desire to meet Jackson he will have made his bookings with the proviso left open in the event of his signing with Peter. That's what I did with Dixon before George met Solly Smith. "Honestly and truly, though, I don't think

Corbett really cares to meet Jackson. "Am I to be Peter's manager? Not that I know of. I am merely representing Char-ley Davies, who telegraphed me to look after Peter's interests in this city. That's all there is to my managing Peter. If there is any trouble, and they should break, I will willingly take Jackson in charge."

Jackson Thinks It a Bluff. CHICAGO, Aug. 31 .- Peter Jackson arrived in the city from New York to-day. He does not think that the Sloux City Athletic Club means business. He is of the opinion that it is a side issue backed by Brady et al. "I went to New York," said Peter, "to find out exactly how I stood with Corbett. I came away disappointed. Corbett gave me no satisfaction. I was satisfied from the first that he did not want to meet me in the ring. I journeyed over 1,000 miles from San Francisco to sound him. Who and what is the Sloux City Athletic Club? So far not one name has been signed to the dispatches. There is no responsible head to the concern.

I understand that a representative of the club is in Chicago. I have not seen nor heard anything of him. I am sick and tired of this talk, and will not advertise Corbett any more. I have no faith whatever in the Sioux City offer. Corbett may give me a fight some time, but it will be a year or two from now, when I am not in shape nor condition to meet him. My money is still in the hands of stakeholder Davis, of this city, and al-though the former match is off, I will not withdraw the stakes until I am satisfied that Corbett does not mean business. will remain in Chicago for nine days and will be prepared to meet the representatives of the Sloux City or any other ath-

letic club that means business. Sioux City Red Hot for Fight. SIOUX CITY, Ia., Aug. 31.-The Sioux City Athletic Club has apparently exhausted all means to get a reply to telegrams sent Peter Jackson or "Parson" Davies in regard to arranging for a meeting place at which articles for a fight with Corbett can be signed. Negotiations will now be commenced with Tom O'Rourke, of New York, who claims to be representing Jackson, and if they are satisfactory a representative of the club will be in New York next week to meet Mr. O'Rourke.

A Fight for Needbam. CHAMBERLAIN, S D., Aug. 31 .- Danny Needham, at present sojourning on his sheep ranch in this county, to-day received a proposition from the Auditorium Athletic Club, of New Orleans, for a twenty-five-round glove contest with Australian Arthur Walker for a purse of \$1,-500, the contest to take place Oct. 10. Needham authorizes the Associated Press to state that he will accept the proposition

Peter Is Shy. CHICAGO, Aug. 31.-Peter Jackson reached here to-day from New York. In discussing the offer of the Sioux City Athlatic Club of a purse for himself and Corbett, he said that he would willingly negotiate with the club when he learned who was behind it. Until he knew that he would have nothing to do with it.

Mrs. Lease Wants the Pullman Men to Go to Kansas.

CHICAGO, Aug. 31.-Pullman strikers may go to Kansas and start car shops on the co-operative plan. Mrs. Lease, Lieutenant Governor Daniels and Frank W. Blackmar, a professor in the university at Lawrence, visited Pullman and had a long conference with Louis Myers, chief chairman of a committee to organize a plan of action. Mrs. Lease addressed a number of the strikers at Turner Hall, and among other things in her talk she assured all those who wanted to go where they could secure their own homes and better their conditions that Kansas stood ready to rebeive them. Myers professes to have \$65,-000 capital to start with and the right to build a sleeping car on which there are twenty-seven patents, and which can be turned out at a cost of \$7,200. allowance of increase of disability for which

PITTSBURG PUTS HIGH FIGURES ON ENCAMPMENT ATTENDANCE.

Belief that 90,000 Veterans Alone Will Be on Hand When the Annual Parade Starts.

PITTSBURG, Pa., Aug. 31.-Secretary

Head, of the committee on accommodation, of the G. A. R. Encampment, to-day made his first official estimate of the number of visitors expected during encampment week. Up to date he has provided for free quarters for 27,724 old soldiers, and there are requests for 725 not yet assigned. As has been the case of other encampments, three times this number of veterans will be present, swelling the number to 80,000 or 90,000 old soldiers alone. The visitors are expected to swell this number to at least 400,000. Chairman Sample, of the parade committee, received a letter from Governor Pattison in which he refuses the request of the committee to permit the 331 battle flags now under seal in Harrisburg to leave their present safe quarters for the hazardous journey to this city to be exhibited at the encampment. While he desires to further the interests of the gathering in every way possible, the Governor concludes that the risk of railroad wreck, fire or other accident is too great to allow of the removal of the flags, which, once destroyed, can never be replaced. This decision is a great disappointment to the G. A. R. managers. The general committee on entertainment

for the coming national encampment of the G. A. R. has thus far secured twentyfive prominent campfire speakers. In addition there are about a dozen more, including General Sickles, Henry Watterson and Secretary Stewart. The arrangements have been made as follows:

Old City Hall—Past Commander-in-chief Gen. Lucius Fairchild, of Milwaukee, to preside; United States Senator C. F. Manderson, of Nebraska; Henry Watterson, of Louisville; Rev. William Corby, of Notre Dame, Ind.; Gen. Daniel Butetrfield, of Buffalo; A. O. Marsh, Department Commander of Indiana; Gov. William McKinley, of Ohio; Past Adjutant Gen. E. G. Bray, of Madison, Wis.; Rear Admiral B. S. Osborn, of New York.

TAKING IN THE CASH.

New York Customs Amount to \$2,197,-670:10 for Three Days.

NEW YORK, Aug. 21 .- The rush of business at the custom house here continues and is likely to do so for some time to come. Yesterday's receipts were \$677,643.45, or a grand total for the past three days of \$2,197,670.10. The first three days after the McKinley bill became a law in October. 1890, the customs receipts at this port were \$1,641,442.23, or \$356,227.87 less than the receipts at this port for the past three days. These figures, however, are in marked contrast with those of Sept. 30 and Oct. 1, 2, 3 and 4, 1890, five days before the McKinley law went into operation. In those days the sum of \$5,459,046.92 was add-ed to the government's coffer.

COVERED HEAD & NECK

Eczema of Worst Type. School and Society Abandoned. Felt Death Would be Relief. Cuticura Soon Put An End to all Sufferings.

Ever since I was three years old I have been troubled with Eczema of the worst type. It at times completely covered my head and neck. I have tried all sorts of medicines, and have been doctored by many very eminent physicians, but with no favorable result. Sometimes my head was one mass of thick scab that would run and bleed, and in summer would be so much worse; my ears looked as though they would fall off. I could not go to school or mingle with society, as the disease smelt so bad. I felt at times that death would be a relief, suffering and itching until I hardly knew what to do. I got your CUTICURA REMEDIES the 26th of January last, and used them according to directions, and can now say that they soon put an end to all my suffering. Words can never tell my thanks to you and your valuable medicine, and I shall always recommend them to whoever I see suffering from the terrible disease. I had spent money and tried the best of doctors with but little relief. MISS HANNAH WARREN. 1437 George Street, La Crosse, Wis.

I have suffered from a severe attack of what is called Prurigo. The disease produced an intense burning and itching sensation that kept me in constant agony all the while, so that I get but little rest day or night. CUYICURA cured me entirely in a few weeks. I cheerfully recommend it for like troubles. CHAS. L. WAFFLE. Ottawa Station, Mich.
